Safety & Health Center

Friday, March 17, 2023

Taming the Wild West of Carbon Markets

Sponsored by Linder Farm Network

10:00am - 11:30am

Lindsay Kuehn
Farmers Legal Action Group

Brad Jordahl Redlin
Minnesota Agricultural Water Quality
Certification Program

Minnesota Farmers Union (MFU), in partnership with Farmers Legal Action Group (FLAG) and the Minnesota Department of Agriculture (MDA), released a Farmers' Guide to Carbon Markets in Minnesota earlier this year. With one fifth of the world's largest companies setting net-zero emissions targets, farmers are being asked to make changes to their operations that sequester carbon and sell companies credit for that sequestered carbon. These relations between farmers, large companies and often third-party vendors are defined by contracts. Attend this panel to learn about potential opportunities and obstacles for your farm in the carbon market.

Adjusting N Management to Climate

1:00pm - 4:00pm

Dan Kaiser
UMN Extension Soil Scientist

Brad Carlson
UMN Extension Educator
Water Resources

This training looks at average climate conditions including soil temperature, soil moisture status, precipitation, and evapotranspiration together with an eye on the calendar date. The implications of deviation from average are discussed with respect to adjusting N management practices based on condition.

Southern MN Irrigators Association Annual Meeting

8:30am – 10:30am

This session provides a specific meeting time for active farmer / irrigators from Southern MN. All farmers who are currently irrigating (or have plans to start pumping water soon!) are encouraged to attend. The primary focus is organization and management of the **Southern MN Irrigators Association**.

Let's Talk Cover Crops With The People Doing It

Sponsored by Saddle Butte Ag/BioTill Cover Crops

11:00am - 1:00pm

TJ Kartes invites you to join him and Andy Linder to review cover crop economics, direct marketing, and how to kill cover crops with other herbicide programs.

TJ Kartes – Regional Manager of Saddle Butte Ag

Andy Linder - producer from Easton Minnesota will discuss his cover crop experience and how he applies economics to his cover crops
